

ZIMMATIC[®]
BY LINDSAY

9500 SERIES | PIVOTS

STRONG. RUGGED. DURABLE.

BUILT STRONGER TO LAST LONGER, FOR GENERATIONS TO COME.

The Zimmatic 9500 series pivots are the industry's top-of-the-line. Designed to excel in the toughest environments, the 9500 sets a standard that others can only hope to reach.

TO GET THE MOST OUT OF THE FIELD, PUT THE BEST TECHNOLOGY IN THE FIELD.

Zimmatic advanced technology control panels offer unparalleled ease of use. Monitor and control your irrigation system to get the most efficient production from any field.

500C standard panel is anything but standard. Easy-to-use intuitive interface, FieldNET-ready, packed with built-in features.

700C panel offers the same ultra-simple interface as the 500C, adding GPS positioning and other automated features.

712C panel features an industry-leading 12" interactive touchscreen, providing detailed status and control in the field or remotely.

FIELDNET TAKES YOU FURTHER.

FieldNET remote irrigation management lets you monitor, control, analyze and apply irrigation from wherever you are, 24/7. The smartest way to irrigate smarter.

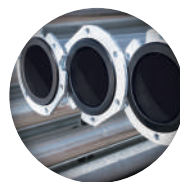

MONITOR.
Keep an eye on your fields without actually being there.

CONTROL.
Remotely manage your entire pivot operation.

ANALYZE AND APPLY.
Get recommendations tailored to your field, then put into action from a smartphone, tablet or computer.

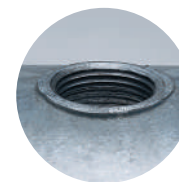

Stronger pipe means longer spans to cover larger fields with greater efficiency.

11-gauge pipeline (10% thicker than competitors) for superior strength and durability.

Full-flow collector ring – externally mounted to eliminate water flow restriction.

Formed, not welded, outlets ensure a watertight seal.

Exclusive Uni-Knuckle span connection provides full support and stress-free flexibility.

Powerful. Rugged. Efficient. (A driveline kind of like you.)

Zimmatic drivelines are designed from the ground up to be more efficient, more durable and more powerful than any other in the industry. You'll get the power to irrigate even the most demanding terrain with years of trouble-free operation.

ZIMMATIC CENTER DRIVE

ZIMMATIC AT GEARBOX

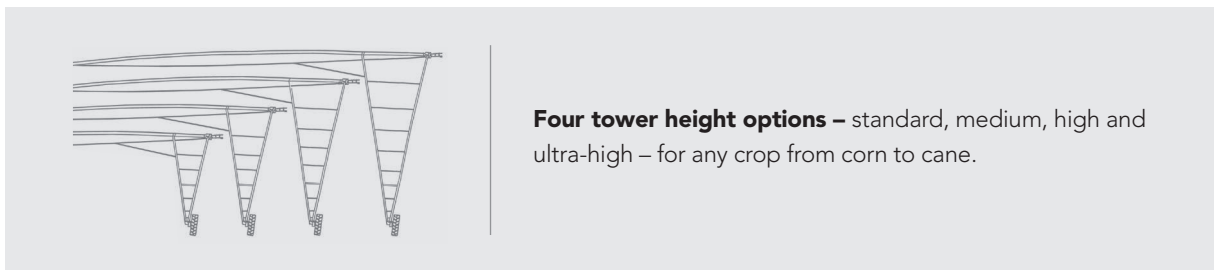

- Highest horsepower on the market outperforms all others.
- Industry's fastest standard center drive delivers unmatched speed and application efficiency.
- Multiple speed and power options to fulfill all requirements.
- Shorter output shaft reduces stress and extends bearing life.
- Larger expansion chamber than competition keeps gearbox running cooler.

THE 9500 SERIES IS ADAPTABLE, VERSATILE AND UNSTOPPABLE.

The legendary performance and strength of the Zimmatic 9500 series goes far beyond basic center pivot irrigation. Product customizations can make your pivot the best performer in any field.

- 9500P** | The standard that all other center pivots are judged against.
- 9500L** | The strength and performance of the 9500 series in a lateral operation.
- 9500HS** | The high speed drive cuts irrigation time in half, ideal for crops with unique water demands.
- 9500MP** | Make your pivot investment go farther – mobile pivot brings a single unit to multiple fields.
- 9500CC** | Custom corners allow growers to tailor their pivot to their unique field shape.
- 9500DS** | With a drop span system, quickly and easily drop and reconnect to irrigate imperfect fields around permanent obstacles.
- 9520PL** | Pivoting lateral offers the best of both worlds to let growers get the most out of every inch of land.
