

# Smart Pump Control That Works As Hard As You Do.

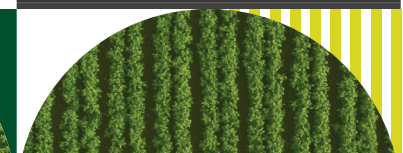

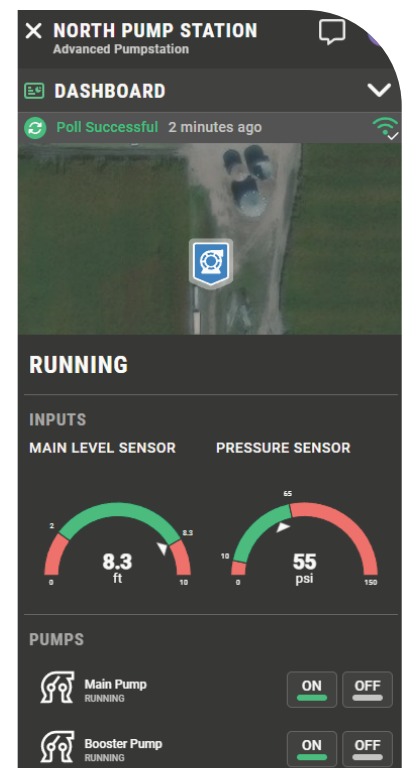

Built For Growers Who Expect More

## When every minute matters, Lindsay comes through.

The Advanced Pump Station is a rugged, flexible pump control solution that puts you in full control of your irrigation system.

- + **Real-Time Monitoring:** Track pressure, level, frequency, flow, temperature, rainfall, and current. Set alerts for high/low thresholds to stay ahead of issues.
- + **Reliable Connectivity:** Choose from cellular or Ethernet RTU packages—both built for dependable performance in the field.
- + **FieldNET™-Ready:** Easily integrate with FieldNet for remote pump control, dashboard views, and daily reporting. Turn pumps on/off, view status by color-coded map icons, and assess daily pump overviews.
- + **Durable by Design:** Engineered for harsh environments with robust mounting options and power flexibility. Built to last, just like every Lindsay product.
- + **Backed by Dealers Who Care:** Get responsive, knowledgeable support from your local Lindsay dealer—trained, certified, and committed to your success.

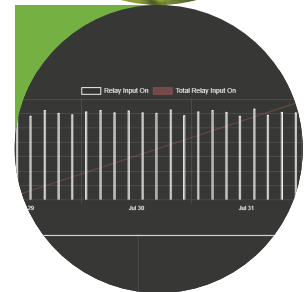

**ORDERING MADE SIMPLE**

# Technical Details

## CUSTOMIZABLE CONTROL

Supports up to 8 choice cards per RTU— analog, digital, current input, and relay output—so you can tailor the system to your exact needs.

Part #	Description	Function
1463910	GPIO, RELAY OUT	Relay control (constant or pulse)
1463930	GPIO, DIGITAL IN	Measures digital pulses (e.g. rain, flow)
1463940	GPIO, VOLTAGE MON	Analog input (0-25VDC or 4-20ma)
1463950	GPIO, CURRENT MON	AC current measurement (0-75 amps)

## WHOLE GOODS PACKAGES

Part #	Description	Function
1835544	SRTU2 Cellular RTU Pump Control	4G SRTU2, Motherboard, RTU Interface Card**
1835545	Ethernet RTU Pump Control	Ethernet Adapter, Motherboard, RTU Interface Card**
1836571	SRTU2 Pump Control TM2 Upgrade	6 choice cards, enclosure, backplate, power supply (assembly and basic control subscription for FieldNET access required)
1836572	Ethernet Pump Control TM2 Upgrade	6 choice cards, enclosure, backplate, power supply (assembly required) and basic control subscription for FieldNET access required

\*Power Requirements

+ 50-watt 12V DC power supply (adjustable to 13.8VDC)

+ For AC 120-240V: Lindsay #1602970

†Installation Notes

+ No enclosure included in base packages

+ Includes 8 standoffs for mounting

+ DIN rail compatible

+ Requires Basic Control subscription for FieldNET access
