Night Visibility - Wet (RL)	R5	R4
Night Visibility - Dry (RL)	RW5	RW4
Skid Resistance	S1	S1
Application Temperature Range	10° - 35°C	
Relative Humidity	< 70%	
Installation Instructions	with primer	
Available Colors	Yellow	

High-visibility markings made for work zones.

Fast to apply. Easy to remove. Built for safety.

Tempoline™ WR is a temporary road marking tape designed to deliver exceptional visibility and performance in construction zones, lane shifts, and other short-term traffic deviations. Whether you're applying lines or temporary symbols, Tempoline WR ensures clear guidance for drivers in all conditions—day, night, and wet weather—while allowing for clean, efficient removal once the work is done..
