

# ROADCONNECT™

BY LINDSAY

## QUICKSTART GUIDE - ADD DEVICE - DESKTOP

### 1 Add new device

After logging into RoadConnect, go to 'ImpactAlert' on the right hand side, then click 'Add Device'.

### 2 Scan QR code

Select 'Scan QR Code' and scan the code from the ImpactAlert device to populate the Hardware ID. Then choose a Name and District.

### 3 Input location details

A screenshot of the 'LOCATION' form. At the top left, there are two buttons: 'Use Gps' and 'Use Map'. Below these are three input fields: 'Longitude\*', 'Latitude\*', and 'Location\*'. Each field has a small red asterisk indicating it is required.

Add in the location details for the ImpactAlert device using either the lat/long data or the Map feature.

### 4 Choose asset type/name

Select the type of asset from the list and include the Manufacture and Model if desired.

A screenshot of the 'ASSET' form. At the top left, there are two radio buttons: 'New Asset' (which is selected) and 'Existing Asset'. Below these are three input fields: 'Asset Type\*' (with a dropdown arrow), 'Manufacturer', and 'Model'. Each field has a small red asterisk indicating it is required.

### 5 Add photos and save

Add photos to show the exactly location and condition of device, then click 'Save'.
